LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 1 DEFINITIONS AND ABBREVIATIONS

The following terms, whether or not capitalized in this Tariff, shall have the meanings set forth below:

900 Call Restriction – Allows customers to restrict 900 prefix outgoing calls from being placed over their exchange access lines.

AIOD (Automatic Identified Outward Dialing) – Where facilities and required arrangements exist, AIOD identifies outgoing Long Distance Message Telecommunications Service messages by station number.

Anonymous Call Rejection – Allows a customer to automatically reject calls from parties who have a privacy feature that prevents the delivery of the calling number to the called.

Auto Redial – Enables the customer to automatically redial the last outgoing telephone number. When the telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Business – When used in relation to service, means service provided in offices, stores, factories and all other places for business use.

Call Blocker – Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Company recorded announcement.

Call Forwarding – Automatically routes incoming calls to a designated answering point selected by the subscriber, regardless of whether the user's station is idle or busy. The subscriber may change the designated answering point using the telephone key pad.

Call Forwarding-Busy Line – Automatically routes incoming calls to a pre-designated answering point when the called line is busy.

Call Forwarding-Busy Line/Don't Answer – Allows incoming calls that encounter a busy condition or are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e. g., tolls charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

Call Forwarding-Don't Answer – Automatically routes incoming calls to a pre-designated answering point when the called line is not answered after a preset number of rings.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Call Return – Enables a Customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Call Selector – Provides a distinctive ring pattern for calls received from up to six different telephone numbers

Call Trace – Enables a Customer to initiate a trace of the last incoming call by dialing an activation code before receiving another call. If a trace is successful, the Company's equipment will record the incoming call detail (not the conversation). The call detail may be provided only to law enforcement authorities upon proper request. The results of the trace will not be provided to the Customer directly. For further action to be taken, the Customer can contact the Company via the telephone number provided in the Call Trace announcement. At its sole option, the Company will set up a tracing arrangement at no charge to the customer when in the judgment of the Company, the unwanted call(s) present a serious threat of bodily harm or destruction of property and Call Trace is not available or is not otherwise a suitable solution. In such situations, the Telephone Company, not the customer, will perform the entire call trace function.

Call Transfer – Provides the capability to transfer or add a third party, using the same line.

Call Transfer Disconnect – Enables business customers to add on another line to an established call creating a three-way call. The Call Transfer Disconnect subscriber may disconnect from the three-way call and allow the other two parties to continue talking, thereby freeing their line for the purpose of originating another call. The Call Transfer Disconnect feature cannot be used to expand a calling scope and is, therefore, not available to customers subscribing to an optional flat-rate local, toll or expanded calling plan. Call Transfer Disconnect cannot be used to avoid toll charges. Call Transfer Disconnect customers are responsible for any toll or other charges associated with calls they originate.

Call Waiting – Provides the user with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Deluxe – Residential only feature, allows forwarding and Call Waiting as well as allowing subscriber to receive notification on a busy line that there is another incoming call. Gives out Caller ID information on Second Caller.

Call Waiting ID – Allows for the display of the name and/or number of a new caller when user is already talking on the telephone and receives another phone call on the customer's CPE and allows the customer to decide to answer the new incoming call or not.

Call Waiting ID Options – Allows Call Waiting ID customer to identify the name and/or number of an incoming caller when already talking on the telephone and receive another phone call on customer's CPE. The customer may decide how to handle the second caller from a menu choice known as Disposition Codes appearing on the customer's CPE as menu options.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Caller ID Deluxe – Displays the name and number of the incoming call and rejects blocked numbers

Caller ID – Number – Identifies the 10-digit number of the calling party before the call is answered. Specialized answering equipment is required to display the calling party information. The calling party may block the display of their number by dialing a code prior to placing the call.

Caller ID – Name – Identifies the name associated with the calling number before the phone is answered. This feature requires Caller ID – Number.

Caller ID on Call Waiting – Provides calling number and calling name delivery following the Call Waiting tone.

Caller ID Blocking – Blocks the delivery of the number and name to the called party on a per call basis. Can either be “selective” or “complete.”

Calling Features – Optional telephone services allowing customers to efficiently manage the call flow generated over their exchange access lines.

Calling Number and Name Delivery Blocking, per call – Blocks deliver of name and number information to Caller ID

Cancel Call Waiting – Allows a user to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Collect Call – Denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number. In the case of a telephone which is identified as Customer-Owned Pay Telephone Service, the charges must be billed to a calling card or third number, or the call may be reoriginated from the called service point.

Company, the – Fusion Telecom of Texas Ltd., L.L.P.unless the context indicates otherwise.

Commission – The Public Utility Commission of Texas, unless the context indicates otherwise.

Conference Telephone Service– The furnishing of simultaneous connection between three or more exchange access arrangements. If Long Distance Message Telecommunications rates would apply on a connection between any two of the exchange access arrangements so connected, conference service will be furnished in accordance with Section 4.6 of this Tariff.

CPE – Customer Provided Equipment.

Customer – The Person which orders or uses the service and is responsible for the payment of rates and charges and compliance with tariff regulations.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Customer Alerting Enablement – Allows residence and business lines to receive an audible alerting tone (intermittent dial tone) transmitted from the central office.

Customer Premises – One Customer Premises is all space in the same building occupied by a Customer and all space occupied by the same Customer in different buildings on the same property.

Customer Provided Equipment (CPE) – Equipment provided by the Customer.

Demarcation Point – That point of interconnection between the Company's facilities and the wiring at the Customer Premises. The Demarcation Point shall consist of wire or a jack conforming to Subpart F of Part 68 of the Federal Communications Commission's rules and regulations (a network interface).

The network interface may be located at a point other than the normal demarcation point where the network interface is already established by the presence of network equipment on the effective date of this Tariff. For multi-unit structures (e.g., apartments, college campuses, shopping centers), the structure owner shall make the final decision on whether the structure shall be treated as a multi-unit structure with one Demarcation Point per unit or, as a single unit with one Demarcation Point for the entire structure. The structure owner shall have the option of having the Demarcation Point placed at a location other than that determined by the Company, provided the structure owner pays any additional construction costs and such location is consistent with the minimum point of entry standard.

With regard to premises for any structure that is built to be mobile (e.g., mobile homes, recreational vehicles), the Company may place the Demarcation Point on a post or pole at or near the pad where such structure is intended to rest. Boat docks and similar premises may be treated by the Company as a single unit premises, with the Demarcation Point being placed on the shore.

Direct Inward Dialing (DID) – Allows an incoming call to reach a station line without attendance assistance.

Direct Outward Dialing (DOD) – A service attribute that routes outgoing calls directly to the exchange network without attendant assistance.

Directory Assistance – Service whereby Customers may request assistance in determining telephone numbers when the listed name is provided.

Directory Assistance Call Completion (DACC) – Service whereby customers may request completion of local or intraLATA long distance calls to a requested number by either the Directory Assistance operator (Semi-Automated) or the Directory Assistance audio response system that provides the requested directory number (Fully Automated).

Directory Listing – The publication in the Southwestern Bell Telephone White Pages directory of information relative to the customers' telephone numbers ("the Directory"), by which telephone users are enabled to ascertain the telephone number of a desired telephone.

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Hunting – Series – A hunting arrangement that provides for sequential hunt over members identified within the hunt group. The hunt for an idle line begins at the telephone number dialed and proceeds sequentially through the lines identified in the hunt group until an idle line is found or the last assigned number within the hunt group is reached. If an idle line is found, the hunt stops and the idle line is rung. If all lines are busy, the caller receives a busy signal.

Hunting – Circle – A hunting arrangement similar to sequential hunting except, if no idle line is found by the time the last line in the group is reached, the hunt circles back to the first line in the group and hunts up to but not including the line where the hunt started.

Hunting – Preferential – Some or all of the lines in a hunt group may have an associated preferential hunt list. This hunt list permits a pre-hunt over a subset or preferential group of lines before hunting through the multiline hunt group.

Individual (1-Party) Line Service – A grade of Exchange Service which provides for a maximum of one main station on a line.

Intercept Referral Service-Basic – Used when a customer disconnects service or changes his telephone number. Calls to the intercepted telephone number are referred to an operator or a recorded message. The caller is provided with information such as a new telephone number and/or name and/or address. This service is provided to residential customers for a minimum of 30 days, while capacity on facilities exists.

Intercept Referral Service-Special – Same as Intercept Referral Service – Basic, plus it provides additional information to the caller.

Intercom Calling – Enables single line customers to set up internal communications (intercom) between multiple telephone extensions. The customer establishes intercom calls by dialing a code and hanging up the telephone handset. The code activates distinctive ringing to alert intercom users of an intercom call. Three-Way Calling is necessary for the operation of Intercom Calling. This feature is obsolete except for existing customers at existing locations.

Interexchange Channel – That portion of a channel which interconnects exchanges in which the stations are located.

LATA – Local Access and Transport Area.

Local Messages – A local message is a telephone conversation of any prescribed length between two telephone stations. It is the measurement upon which the charges for telephone communications are based when the calling station and the station to which communications is established are both within the same local service area.

Local Service Area – That area within which a Customer can make telephone calls at exchange rates.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Multi-Directory Numbers – Allows customers to establish up to three telephone numbers on the same access line. Each number is assigned a distinctive ring. The billing telephone number is the “master” number and has a standard ring. The other number(s) are dependent numbers and are assigned individual distinctive rings.

Multiline Hunt Group – Rotary (hunting) service provided in Electronic Switching System (ESS) offices where a standard seven-digit number is assigned only to the first line in a customer’s number group. Subsequent lines are designated by using two-, three- or four-digit numbers dependent on the type of ESS office. The Company reserves the right to determine when Multiline Hunt Group numbers are assigned.

Night Number Service – Allows calls to be routed to a specific line or trunk in a hunt group. The Night Number is strapped in the Central Office to either a telephone number of a terminal working at the end user’s location. Night numbers associated with a terminal will not hunt.

Non-Automated – Where the person originating the call dials zero or a special access number (e. g., an 800/888 number), and the operator dials the number and collects billing information for completion of the call.

Semi-Automated – Where the personal originating the call dials zero or a special access number (e. g., an 800/888 number), (or 1+ calls from pay telephones), then dials the desired telephone number, and the operator collects billing information for completion of the call.

Fully Automated – Fully automated service is where the person originating the call dials zero or a special access number (e.g., an 800/888 number), then dials the desired telephone number, and then dials the service selection codes as instructed by the automated billing equipment, and the call is completed without the assistance of an operator.

Person – An individual, corporation, limited liability company, partnership, or any other entity.

Preferred Call Forwarding - Allows the customer to transfer up to 6 telephone numbers on a screening list to another number.

Preferred Customer Discount (PCD) – A discount added to the monthly invoice and deducted from the rack rate for grandfathered products and term contract discounts.

Preferred Number Service (PNS) – A residential service whereby incoming calls to the Customer’s PNS number are automatically forwarded by the Company central office equipment to the Customer’s current residence telephone number.

Priority Call – Provides the customer with a distinctive ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code. The Company’s equipment will screen incoming calls against the screening list and provide a distinctive ring for telephone numbers on the list.

SECTION 1 DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Remote Call Forwarding – A service whereby calls placed to a telephone number are automatically forwarded by central office equipment to another number designated by the end user. The Remote Call Forwarding number may be either a different exchange (remote) or another central office area within the same exchange (local). Additional paths may be provided to handle multiple calls to the Remote Call Forwarding number as long as there are at least an equal number of lines at the terminating end. Any toll portions of calls are billed to the Customer.

Remote Access to Call Forwarding – Allows the user to activate and/or deactivate the Call Forwarding feature from any remote location, using a Touch-tone phone.

Repeat Dialing – Enables the customer to automatically redial the last outgoing telephone number. When the telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Residence or Residential – When used in relation to service, means service provided in private residence for personal non-business use.

Selective Call Forwarding – Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list.

Sent-Paid – Denotes a billing arrangement whereby a call is charged to the service point originating the call.

Series Completion – Telephone numbers assigned in a rotary (hunting) number group where each number assigned is a standard seven-digit number. The Company reserves the right to determine when series completion numbers are assigned.

Simultaneous Call Forwarding – Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The line/trunks at the Simultaneous Call Forwarding customer's terminating location must equal or exceed the aggregated number of potential originating calls from all customer locations. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e. g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone and the line to which the call is being forwarded. This service cannot be used to avoid toll.

Six-Way Calling – Allows a station in the talking state to add up to four additional parties to the call. This feature may be used on both incoming and outgoing calls.

Speed Calling – Allows a subscriber to establish a speed calling list, which associates telephone numbers with a unique q-digit and/or 2-digit speed calling code. Initial entry and changes to the speed calling list are directly input from the associated subscriber line. This feature is available as an eight code list or a thirty code list. Code lists may include local and/or toll telephone numbers.

SECTION 2 RULES AND REGULATIONS**2.1 Undertaking of the Company**

- 2.1.1 The Company undertakes to furnish telecommunications service pursuant to the terms of this Tariff in connection with one-way and/or two-way information transmission between points within a calling scope in portions of the State of Texas, as specified herein.
- 2.1.2 The furnishing of service under this Tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.
- 2.1.3 The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities, offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.
- 2.1.4 The Company may undertake service-affecting activities that may occur in normal operation of the Company's business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. With some emergency or unplanned service-affecting conditions, such as an outage resulting from wiring or equipment damage, notification to the Customer may not be possible.
- 2.1.5 Customers may be required to enter into written service orders which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this Tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.
- 2.1.6 Pursuant to the Commission's Substantive Rule 26.31 (a) (1), the Company, upon request for service by a residential applicant or for a transfer of service by a residential customer, shall inform the applicant or customer of the lowest-priced alternative service available at the customer's location. The Company shall provide this information beginning with the lowest priced alternative and giving full consideration to applicable equipment options and installation charges.
- 2.1.7 Applications for initial or additional service made verbally or in writing become a contract upon the establishment of the service or facility.
- 2.1.8 The Company may decline to serve an applicant until such applicant has complied with the state and municipal regulations and approved regulations of the Company on file with the Commission governing the service applied for or for the following reasons:
(1) Applicant's facilities inadequate: If the applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; or

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.1 Undertaking of the Company, (Cont'd.)

2.1.8 (cont'd)

- (2) For indebtedness: If the applicant is indebted to the Company for the same kind of service as that applied for; provided however, that in the event the indebtedness of the applicant for service in dispute, the applicant shall be served upon complying with deposit requirements.
- (3) Refusal to make deposit: For refusal to make a deposit if applicant is required to make a deposit.

2.1.9 Pursuant to the Commission's Rule 23.42 (d), the Company shall not refuse service to a present customer or applicant for the following reasons:

- (1) delinquency in payment for service by a previous occupant of the premises to be served;
- (2) failure to pay for merchandise, or charges for non-utility service purchased from the Company;
- (3) failure to pay a bill to correct previous underbilling due to misapplication of rates of more than six months prior to the date of application;
- (4) violation of the Company's rules pertaining to operation of nonstandard equipment or unauthorized attachments which interferes with the service of others, or other services such as communication services, unless the customer has first been notified and been afforded reasonable opportunity to comply with the said rules;
- (5) failure to pay a bill of another customer as guarantor thereof, unless the guarantee was made in writing to the Company as a condition precedent to service.
- (6) failure to pay the bill of another customer at the same address except where the change of customer identity is made to avoid or evade payment of a bill. A customer may request a supervisory review if the Company determines that evasion has occurred and refuses to provide service.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.2 Limitations of Service

- 2.2.1 The Company offers service to all Persons who desire to purchase service from the Company consistent with all provisions of this Tariff. Persons interested in the Company's services shall submit information to the Company which fully satisfies the Company and identifies the services requested.
- 2.2.2 Service is offered subject to the availability of the necessary facilities and equipment, necessary arrangements with other carriers and billing capabilities, and is subject to the provisions of this Tariff. The Company reserves the right not to provide service to or from a location where legally prohibited.
- 2.2.3 The Company reserves the right to discontinue furnishing service when necessitated by conditions beyond its control, or when the Customer is using the service in violation of any provision in this Tariff, the rules and regulations of the Commission, or the law.
- 2.2.4 Title to all facilities provided by the Company under this Tariff remains with the Company. Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this Tariff shall apply to all such permitted assignees or transferees, as well as all conditions for service.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.3 Use of Service

2.3.1 Permitted Uses

Service may not be used for any unlawful purposes, or for any purpose for which any payment or other compensation is received by the Customer, except when the Customer is a duly authorized and regulated common carrier.

2.3.2 Minimum Service Period

The minimum period of service is one month (30 days), unless otherwise stated in this Tariff.

2.3.3 Fixed Service Period

If Customer and the Company have agreed to a specified term of service under any service order, then following expiration of the initial term of service, or any extension thereof, service shall continue on a month-to-month basis at the then current rates unless terminated by either party upon 30 days' written notice.

2.3.4 Termination

Any termination shall not relieve Customer of its obligation to pay any charges incurred under this Tariff or in any service order prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the service order shall survive such termination.

2.4 Liability

2.4.1 The liability of the Company for any claim or loss, expense or damage, due to any interruption, delay, error, omission, or defect in any service, facility, or transmission provided under the Tariff shall not exceed the amount of the credit allowance described in Section 2.6 herein. The extension of credit allowances as described in Section 2.6 shall be the sole remedy of Customer and sole liability of the Company for any interruption, delay, error, omission, or defect in any service, facility, or transmission provided under the Tariff. In no event will the Company be liable for any direct, indirect, consequential, incidental, exemplary, punitive, or special damages, or for any lost income or profits, even if advised of the possibility of the same.

SECTION 2 RULES AND REGULATIONS, (CONT'D)**2.4 Liability, (Cont'd.)**

2.4.4 Emergency 911 Service (E911) is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies. The Company is not responsible for any losses, claims, demands, suits or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party or person for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused by: (1) mistakes, omissions, interruptions, delays, errors or other defects in the provision of this service, or (2) installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment and facilities furnishing this service.

The Company is not responsible for any infringement or invasion of the right of privacy of any person or persons, caused directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of Emergency 911 Service features and the equipment associated therewith, or by any services furnished by the Company including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing Emergency 911 Service, and which arise out of the negligence or other wrongful act of the Company, the Customer, its users, agencies or municipalities, or the employees or agencies of any one of them.

When a Customer with a nonpublished telephone number places a call to the Emergency 911 Service, the Company will release the name and address of the calling party, where such information can be determined, to the appropriate local governmental authority. By subscribing to service under this Tariff, Customer acknowledges and agrees with the release of information as described above.

The Company will supply subscriber information to update the Emergency 911 Service database at the time the Company submits subscriber orders for basic local exchange telecommunications service to Southwestern Bell Telephone Company.

At the time the Company provides basic local service to a customer by means of the Company's own cable pair, or over any other exclusively owned facility, the Company will be obligated to make the necessary equipment or facility additions in the 911 service provider's equipment in order to properly update the database for 911. At that time, the Company will be obligated to provide facilities to route calls from the end users to the proper PSAP.

SECTION 2 RULES AND REGULATIONS, (CONT'D)**2.5 Interruption of Service**

Customer will be entitled to a credit allowance for an interruption of service which is not caused by or does not result from the negligence or act of Customer or to the failure of channels, equipment, power supplies, and/or communications systems provided by Customer or Persons other than the Company. A credit allowance is subject to the provisions of this section and the other sections of this Tariff, including, but not limited to, the general liability provisions set forth in Section 2.4 herein and the terms of Section 2.6 herein. Customer is obligated to notify the Company immediately of any interruption in service for which the Customer desires a credit allowance. Before giving such notice, Customer shall ascertain that the interruption is not being caused by any action or omission of Customer within his or her control, or is not in wiring on Customer's side of the Demarcation Point or equipment, power supplies, or communications systems, if any, furnished by Customer or Persons other than the Company.

2.6 Responsibility of the Customer

2.6.1 All Customers assume general responsibilities in connection with the provisions and use of the Company's service. When facilities, equipment, and/or communications systems provided by others are connected to the Company's facilities, Customer assumes additional responsibilities. Customers are responsible for:

- A. Placing orders for service; paying all appropriate charges for service rendered by the Company; complying with the Company's regulations governing the service; and assuring that its users comply with regulations.
- B. Providing:
 - 1. the name(s) and address(es) of the person(s) responsible for the payment of service charges; and
 - 2. the name(s), telephone number(s), and address(es) of the Customer contact person(s).
- C. Paying the Company for the replacement or repair of the Company's equipment when the damage results from:
 - 1. the negligence or willful act of Customer or user;
 - 2. improper use of service; or
 - 3. any use of equipment or service provided by others.

2.6.1 (cont'd)

- D. Providing at no charge, as specified from time to time by the Company, any needed personnel, equipment, space and power to operate the Company's facilities and equipment installed on the Customer Premises, and the level of heating and air conditioning necessary to maintain a proper operating environment on such premises;
- E. Obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of and associated equipment used to provide services to the Customer from the cable building entrance or property line to the location of the equipment space described above. Any costs associated with the obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company provided facilities, shall be borne entirely by, or may be charged by, the Company to the Customer;
- F. Providing the Company's authorized employees, contractors, or agents access to the Customer's premises at all reasonable hours for any purpose reasonably pertinent to furnishing of telephone service;
- G. Complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to the location of the Company's facilities and equipment in any Customer Premises or the rights-of-way for which the Customer is responsible under this section; and granting or obtaining permission for the Company's employees, contractors, or agents to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or, upon termination service as stated herein, removing the facilities or equipment of the Company, and not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities;
- H. A Customer who subscribes to the Company's Exchange Service and resells these services to others shall be responsible for complying with all laws and regulations of the State of Texas, which relate in any way to its provision of local telephone service, including, but not limited to, laws and regulations regarding consumer protection, billing and collection practices, tariffing obligations, and payment of applicable taxes. The Company has no obligation to provide notice to, or otherwise communicate with, Customers regarding local telephone service provided by another carrier.
- I. Providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which the Company's employees, contractors, or agents shall be installing or maintaining the Company's facilities and equipment.

2.6.2 Availability of Service for Maintenance, Testing, and Adjustment

Upon reasonable notice, the facilities provided by the Company shall be made available to the Company for such tests and adjustments as may be necessary to maintain them in satisfactory condition. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.6.3 Credit Allowances

- A. Credit for failure of service or equipment will be allowed only when failure is caused by or occurs in facilities or equipment owned, provided and billed for, by the Company.
- B. Credit allowances for failure of service or equipment starts when Customer notifies the Company of the failure or when the Company becomes aware of the failure and ceases when the operation has been restored and an attempt has been made to notify Customer.
- C. Customer shall notify the Company of failures of service or equipment and make reasonable attempts to ascertain that the failure is not caused by Customer Provided Equipment, any act or omission of the Customer, or in wiring or equipment located on the Customer's side of the Demarcation Point.
- D. Only those portions of the service or equipment disabled will be credited. No credit allowances will be made for:
 - 1. interruptions of service resulting from the Company performing routine maintenance;
 - 2. interruptions of service for implementation of a Customer order for a change in the service;
 - 3. interruptions caused by the negligence or willful act of omission of Customer or its authorized user; or
 - 4. interruptions of service because of the failure of service or equipment provided by Customer, authorized user, or other carriers.

2.6.3 Credit Allowances, (Cont'd.)

E. Credit Allowance – Directory

For listings in alphabetical telephone directories and information records furnished without additional charge, no liability shall be attached to the Company.

Subject to the provision of Section 2.4 of this Tariff, the Company shall allow, for errors or omissions in alphabetical telephone directories (excluding the use of bold face type), or in information records, an amount within the following limits:

1. For listings in alphabetical telephone directories furnished at additional charge, as set forth herein, an amount not in excess of the charge for that listing during the effective life of the directory in which the error or omission occurred.
2. For listings in the information records furnished at additional charge, as set forth herein, an amount not in excess of the charge for the listing during the period of omission or error.

2.6.4 Cancellation by Customer

- A. Customer may cancel service any time after meeting the minimum service period. Termination charges will apply if Customer cancels prior to the expiration of a one-year or multi-year service contract.
- B. If Customer orders service requiring special facilities dedicated to the Customer's use and then cancels the order before the service begins, or before completion of the minimum service period, or before completion of some other period mutually agreed upon by Customer and the Company, a charge will be made to Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of Customer by the Company and not fully reimbursed by installation and monthly charges. If based on the order, any construction has either begun or been completed, but no service provided, the nonrecoverable cost of such construction shall be borne by Customer.

2.6 Responsibility of the Customer, (Cont'd.)

2.6.5 Payment and Charges for Service, (Cont'd.)

- G. During the first billing period in which a residential customer receives service, the Company provides each customer an insert or other written notice which contains an itemized account of the charges for the equipment and service for which the customer has contracted.
- H. If notice of a dispute as to charges is not received in writing, in person or via telephone message by the Company within 30 days after billing is received by the Customer, the invoice shall be considered correct and binding on the Customer, unless extraordinary circumstances are demonstrated. Any disputed charges that cannot be resolved between Customer and the Company may be appealed to the Commission.

2.6.6 Advance Payments and Deposits

A. Advance Payments

The Company may require a Customer or applicant for service to make an advance payment (1) if the applicant is unable to establish that he had a previous account with a telephone utility for a period of at least 12 months for which all undisputed charges were satisfactorily paid, or (2) if the applicant has had no previous telephone service or has had previous telephone service of less than 12 months, the applicant's credit record will be accessed and evaluated by means of a mechanized retrieval system between the Company and national recognized credit bureaus. No security payment will be required of those applicants who meet the Company's criteria, as evaluated by the scoring model. The criteria used in assessing a score is as follows: collection judgments, written-off accounts, outstanding collection accounts, various degrees of delinquency history from 30-180 days and not paid in full or current at the time of scoring, bankruptcies, liens, other public records. The advance payment will not exceed an amount equal to all nonrecurring charges and two month's estimated recurring charges, as a condition of continued or new service. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction and two month's estimated recurring charges. The advance payment will be credited to the Customer's initial bill and, to the extent that a credit balance remains after the amount of the initial bill has been satisfied, then the credit balance will be applied to subsequent bills in the same manner until there is no balance remaining on the advance payment.

SECTION 2 RULES AND REGULATIONS, (CONT'D)**2.6 Responsibility of the Customer, (Cont'd.)****2.6.6 Advance Payments and Deposits, (Cont'd.)****B. Deposits**

The Company reserves the right to examine the credit record of all service applicants as stated above and require a security deposit. If it is deemed necessary by the Company in safeguarding its interests, applicants for service or present customers may be required to make a deposit of an amount not to exceed two months' exchange service charges plus two month's estimated long distance service charges, to be applied in payment of any unpaid charges for exchange or long distance service which may be rendered. In accordance with 23.43 (b) (4) of the Commission's Substantive Rules, such deposit may be required to be made within 10 days after issuance of written termination notice and required deposit. In lieu of initial deposit, the customer may elect to pay the current bill by the due date of the bill, provided the customer has not exercised this option in the previous twelve months. The customer may furnish in writing a satisfactory guarantee to secure payment of bills in lieu of cash deposit. In accordance with 23.43 (e) (1) of the Commission's Substantive Rules, the required deposit may be based on long distance charges of the interexchange carriers only in those instances where the Company's tariff provides for billing for an interexchange carrier. Payment of the interest to the customer shall be annually if requested by the customer, or at the time the deposit is returned or credited to the customer's account. The deposit shall cease to draw interest on the date it is returned or credited to the customer's account. In accordance with 23.43 (e) (3) of the Commission's Substantive Rules, the Company will not pay interest on deposits held 30 days or less. Payment of interest will be made retroactive to the date of deposit for deposits held more than 30 days.

An applicant is defined as a person who applied for service for the first time or reapplies at a new or existing location after discontinuance of service. Customer is defined as someone who is currently receiving service.

At the time a deposit is required, the Company shall provide applicants for, and customers of, commercial, industrial, or residential service written information about deposits in accordance with 23.45 (b) (5) of the Commission's Substantive Rules, including:

1. the circumstances under which the Company may require a deposit or an additional deposit;
2. how a deposit is calculated;
3. the amount of interest paid on a deposit and how this interest is calculated; and
4. the time frame and requirement for return of the deposit to the customer.
5. no revenue from estimated telephone directory advertising will be used in determining the amount of deposit.

2.6.6 Advance Payments and Deposits, (Cont'd.)

B. Deposits, (Cont'd.)

An initial deposit may not be required from residential customers unless the customer has more than one occasion during the last 12 consecutive months of service in which a bill for utility service was paid after becoming delinquent or if the customer's service was disconnected for nonpayment, in accordance with 23.43 (3) (A) of the Commission's Substantive Rules.

If the residential applicant has been a customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account, and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment; applicants are encouraged to obtain a letter of credit history from their previous utility, and utilities are encourage to provide such information with final bills, in accordance with 23.43 (b) (3) (A) of the Commission's Substantive Rules. Credit history shall be applied equally for a reasonable period of time to a spouse or former spouse who shared the service, without modification and without additional qualifications required of either the customer or spouse/former spouse.

All applicants for permanent residential service who are sixty-five (65) years of age or older will be considered as having established credit if such applicant does not have an outstanding account balance with the Company or another company for the same service which accrued within the last two years. No cash deposit shall be required of such applicant under these conditions.

In accordance with 23.43 (b) (3) (B) of the Commission's Substantive Rules, a residential applicant shall not be required to pay a deposit, if the applicant demonstrates a satisfactory credit rating by appropriate means, including, but not limited to, the production of generally acceptable credit cards, letters of credit reference, the names of credit references which may be quickly and inexpensively contacted by the Company, or ownership of substantial equity.

In the case of commercial or industrial service, if the credit of an applicant for service has not been established satisfactorily, the applicant may be required to make a deposit.

SECTION 2 RULES AND REGULATIONS, (CONT'D)**2.6 Responsibility of the Customer, (Cont'd.)****2.6.6 Advance Payments and Deposits, (Cont'd.)****B. Deposits, (Cont'd.)**

An applicant for service, or a present customer, may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not less than the requested deposit, from a present customer acceptable to the Company. The Guaranty Contract shall be on a form provided by the Company which shall include the Company's right to transfer charges from a defaulted bill to the customer, from whom a deposit or a Contract of Guaranty was required, to the Guarantor's account or accounts and the further right to suspend the Guarantor's service pursuant to Section 2.6.5, Payments and Charges for Service, of this tariff. Pursuant to the Commission's Substantive Rule 23.43 (b) (3) (C) (i), unless otherwise agreed to by the guarantor, the guarantee shall be for the amount of deposit the Company would normally seek on the applicant's account.

The fact that a deposit has been made or a Guaranty provided, shall in no way relieve the customer from complying with the Company's regulations as to the prompt payment of bills, nor constitute a waiver or modification of the regular practices of the Company providing for the temporary suspension of service or the termination of the service contract for nonpayment of bills.

Service may be discontinued for failure to comply with deposit or guarantee arrangements or to furnish a suitable deposit when conditions appear to require the Company to have such credit protection. Initial deposits may be required of applicants or existing customers. Initial deposits may be required of applicants or existing customers. In accordance with 23.43 (e) (1) (A) and (B) of the Commission's Substantive Rules, when a deposit is required on an existing account, the following rules apply:

1. Deposit Required During the First Twelve Months of Service Based on Usage:

Actual usage must be three times the estimated usage (or three times average usage of most recent three bills) and current usage must exceed \$150 and 150% of the security held, before a new deposit is requested. No revenue from estimated telephone directory advertising will be used in determining the amount of deposit. If a deposit is requested, the customer may be required to pay the deposit within 10 days after issuance of written notice of termination and requested deposit, or, in lieu of the deposit, the customer may elect to pay the current usage within 10 days after issuance of written notice of termination and requested deposit.

2. Deposit Requirements Based on Billing:

Commercial

Actual billings of a commercial customer must be at least twice the amount of the estimated billings and a suspension notice has been issued on a bill within the previous 12 month period, before a new deposit can be requested. If a deposit is requested, the customer may be required to pay the new deposit within 15 days after issuance of written notice of termination and requested deposit, or, in lieu of the deposit, the customer may elect to pay the current bill by the due date of the bill, provided the customer has not exercised this option in the previous 12 months.

Residential

Actual billings of a residential customer must be at least twice the amount of the estimated billings after two billing period and a suspension notice has been issued on a bill within the previous 12 month period, before a new deposit can be requested. If a deposit is requested, the customer may be required to pay the new deposit within 15 days after issuance of written notice of termination and requested deposit, or, in lieu of the deposit, the customer may elect to pay the current bill by the due date of the bill, provided the customer has not exercised this option in the previous 12 months.

If service is not connected or after disconnection of service, the Company shall promptly and automatically refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. A transfer of service from one premises to another within the service area of the Company shall not be deemed a disconnection within the meaning of these rules, and no additional deposit may be demanded unless permitted by these rules.

When the customer has paid bills for service for 12 consecutive residential billings or for 24 consecutive commercial or industrial billings without having service disconnected for nonpayment of bill and without having more than two occasions in which a bill was delinquent, and when the customer is not delinquent in the payment of the current bills, the Company shall promptly and automatically refund the deposit plus accrued interest to the customer in the form of cash or credit to a customer's bill, or void the contract of guaranty or any related document and return such document(s) to the guarantor.

B. Deposits, (Cont'd.)

In accordance with 23.43 (i) of the Commission's Substantive Rules, the Company will keep records of deposits as follows:

- (1) the name and address of each depositor;
- (2) the amount and date of deposit; and
- (3) each transaction concerning the deposit.

The Company will issue a receipt of deposit to each depositor and will provide an appropriate means to establish claim if the receipt is lost. The Company will make a reasonable effort to return unclaimed deposits and will retain a record of such deposits for minimum of four years.

2.6.7 Bad Check Charge

The Company will bill Customer a one-time charge of \$25.00 if Customer's check for payment of service is returned for insufficient or uncollected funds, closed accounts, or any other insufficiency or discrepancy necessitating return of the check at the discretion of the drawee bank or other financial institution.

2.6.8 Late Payment Charge

The Company may apply a late payment charge if any portion of the Customer's payment is received by the Company after the payment due date, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment. The late payment charge shall be applied to the portion of the payment not received by the date due. On all unpaid business bills a 6.5% charge will be applied. A charge of \$5.50 plus 1% of the unpaid balance will be applicable on all residential bills if unpaid charges are greater than \$10.00. A Finance Charge of 1.5% shall apply to the outstanding balance of charges, as at the end of the "Due Before Date", with effect from the second month after the charges are first applied, and every month thereafter.

Collection procedures are unaffected by the application of the late payment or finance charge.

Pursuant to limitations set forth in Section 2.6.3, when service is interrupted the credit allowance will be computed on the following basis:

- A. No credit shall be allowed for an interruption of less than twenty-four hours.
- B. Customer will be credited at the proportionate monthly charge involved for each twenty-four hours or fraction thereof of interruption.

2.7.3 Cancellation of Credit

Where the Company cancels a service and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge for each day after the service was discontinued. This credit will be issued to Customer or applied against the balance remaining on Customer's account.

2.7.4 Disconnection of Service by the Company

The Company may discontinue service, in accordance with 23.46(e) of the Commission's Substantive Rules, for any of the following reasons:

- A. delinquency in payment for service by a previous occupant of the premises;
- B. failure to pay for merchandise, or charges for nonutility service provided by SWBT;
- C. failure to pay for a different type of class of service unless for such service is included on the same bill;
- D. failure to pay the account of another customer as guarantor thereof, unless SWBT has in writing the guarantee as a condition precedent to service;
- E. failure to pay charges arising from an underbilling occurring due to any misapplication of rates more than six months prior to the current billing.

Residential service may not be discontinued by the Company for failure to pay charges not subject to the Commission's jurisdiction unless specifically authorized in the Company's tariffs approved by the Commission.

Residential service may be discontinued during normal business hours on or after the date specified in the notice of discontinuance. Residential customers shall have a minimum of 26 days from the rendition of a bill to pay the charges stated.

Residential service shall not be discontinued unless written notice by first-class mail is sent or delivered to the Customer at least ten days prior to the date of the proposed discontinuance.

At least 24 hours preceding a discontinuance, the Company shall make reasonable efforts to contact the Customer to advise it of the proposed discontinuance and what steps must be taken to avoid it.

The Company's Notice of Discontinuance shall contain the following information:

The name and address and the telephone number of the Customer.

A statement of the reason for the proposed discontinuance and the cost (to the Customer) for reconnection.

The date after which service will be discontinued unless appropriate action is taken.

Proper notice shall consist of a separate mailing or hand delivery at least ten days prior to a stated date of disconnection, with the words "termination notice" or similar language prominently displayed on the notice. The information included in the notice shall be provided in English and Spanish as necessary to adequately inform the customer. Attached to or on the face of the termination notice for telephone bills shall appear a statement notifying the customer that if they are in need of assistance with payment of their bill, or are ill and unable to pay their bill, they may be eligible for alternative payment programs, such as deferred payment plans, and to contact the local office of the utility for more information.

2.7.5 Equal Access

The Company will allow Customers the choice of intraLATA and interLATA interexchange carriers.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.8 Restriction of Service

If service is disconnected for nonpayment, service will be reestablished only upon receipt of payment of all charges due, which include charges for service and facilities during the period of disconnection and which may include a service restoration fee. If the Customer has a history of payments returned for insufficient funds, the Company may require payment by cash, money order, personal check or certified check. If payment is made by personal check, restoration will be effected upon clearance of the check. When a Customer's service has been disconnected in accordance with this Tariff and the service has been terminated through the completion of the Company's service order, service will be reestablished only upon a basis of an application for new service.

During the period of disconnection, Customer's telephone number will not be reassigned. Once service has been terminated, the telephone number may be reassigned to another Customer.

2.9 Taxes and Surcharges

2.9.1 Customer will be billed and is responsible for payment of applicable E911, Telecommunications Relay Service (TRS), universal service fund charges, local number portability charge, line recovery charges, interexchange access charges, and all federal, state and local taxes, fees, assessments and surcharges assessed in conjunction with service used.

Effective July 1, 2023, the Texas Universal Service Fund (TUSF) Surcharge is 12% and **(R)(T)** applies to every retail customers' bill.

2.9.2 All taxes, surcharges and assessments (i.e., sales tax, municipal utilities tax, franchise fee, E911, TRS) will be listed as separate line items and are not included in the quoted rates.

2.9.3 Residential, non-residential and point-to-point access lines provided pursuant to this tariff are subject to a municipal franchise fee as established for the city in which the end user of the access lines is located. Effective with the charges billed on or after March 1, 2000, the monthly recurring municipal charge will be equal to a monthly amount developed using criteria as recommended by your local municipality with information supplied by this local certificated telecommunications provider (CTP). The fee should be assessed as a per-line-charge on the end user bill. This municipal charge results from implementation of House Bill 1777 – Telecommunications Franchise Law which allows all municipalities to be compensated by CTPs for right-of-way usage. The fee has been developed and/or allocated across rate classifications according to local municipal guidelines.

2.9.4 Facilities Charge

The Facilities Charge provides for delivery of high quality services, including connecting customers to the network, customer service and network monitoring, updating operational systems, and the construction of a facilities-based network. The Facilities Charge is applied to each line. A Supplementary Facilities Charge is also applied to each line where Fusion Long Distance service is used.

Charge	MRC Fusion
Facilities Charge	\$6.38 on each Business line
	\$6.38 on each Residential line
Supplementary Facilities Charge	\$1.00 on each line

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.10 Start of Billing

For billing purposes, the start of service is the day of acceptance by the Customer of the Company's service or equipment.

2.11 Service Connection and Facilities on Customer's Premises

The Company shall furnish and maintain all facilities including protective apparatus, to provide telecommunications service except as may be otherwise specified in this Tariff. All facilities shall conform to the established construction standards of the Company.

Except as otherwise specified in this Tariff, all equipment furnished by the Company in connection with a Customer's service shall be carefully used and only duly authorized employees of the Company or its contractors or agents shall be allowed to connect, disconnect, change or alter in any manner any or all such facilities.

Customer will be held responsible for loss of or damage to any facilities furnished by the Company unless such loss or damage is due to causes beyond the Customer's control.

At the termination of service the Company may remove any and all of its property located at the Customer Premises as provided for in this Tariff.

No equipment apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, whether physically, by induction or otherwise, except as provided in this Tariff. In case any such unauthorized attachment or connection is made, the Company shall have the right to remove or disconnect the same; or suspend the service during the continuance of said attachment or connection; or to terminate the service.

- 1) The Texas Universal Service Fund rate shall be increased to 3.4% to 4.3% effective January 1, 2012.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.12 Telephone Number Intercept

Whenever a Customer's telephone number is changed after a directory is published, the Company will intercept all calls to the former number for 30 days and give the calling party the new number, provided existing central office equipment will permit and the Customer so desires.

2.13 Billing Disputes

In the event of a dispute between a customer and the Company regarding any bill for telephone service, the Company shall make an investigation as required by the particular case, and report the results to the customer. In the event the dispute is not resolved, the Company shall inform the customer of the complaint procedures of the Commission.

Notwithstanding any other section of the Company's tariffs or the Commission's Substantive Rules, the customer's service shall not be subject to discontinuance for nonpayment of that portion of a bill under dispute pending the completion of the determination of the dispute, but in no event to exceed 60 days. The customer is obligated to pay any billings not disputed as established in 23.46 of the Commission's Substantive Rules.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.14 Dispute Resolution

This Section applies to any dispute, controversy, or claim, whether based in contract, tort, equity, statute or any other legal theory, between the Customer and the Company arising out of, or relating to, any service, product, facilities, charge, advertising, representation, act or omission of the Company, or any other dispute, controversy, or claim arising from the relationship between the parties that either the Customer or the Company has against the other, regardless of the date of accrual and even if the dispute, controversy, or claim arises after service has terminated (hereinafter collectively referred to herein as “Dispute” or “Disputes”). All Disputes must be resolved as described in this section. **BY ORDERING AND/OR CONTINUING SERVICES PROVIDED IN THIS TARIFF, THE CUSTOMER AGREES THAT ANY DISPUTE WILL BE RESOLVED BY THE DISPUTE RESOLUTION PROCESS DESCRIBED HEREIN AND NOT BY A JUDGE OR JURY IN COURT.**

If the Customer has a Dispute with the Company, the Customer must first call the Company’s Customer Service department, at the number listed on the Customer’s invoice, to attempt to resolve the Dispute. The Customer must describe the Dispute and provide the Company with any supporting documentation reasonably requested by the Company. Likewise, if the Company has a Dispute with the Customer it will notify the Customer by letter sent to the Customer’s billing address and attempt to resolve it before pursuing arbitration.

If the parties are unable to resolve the Dispute within 60 days of the initial notice, either party may request arbitration as described below.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.14 Dispute Resolution, (Cont'd.)

MANDATORY ARBITRATION OF DISPUTES. ANY DISPUTE OF ANY KIND BETWEEN THE CUSTOMER AND THE COMPANY, OR ANY EMPLOYEE, AGENT, PRIVY OR AFFILIATED ENTITY OF EITHER PARTY, WILL BE RESOLVED BY FINAL AND BINDING ARBITRATION AS PRESCRIBED IN THIS SECTION. THE FEDERAL ARBITRATION ACT, NOT STATE LAW, GOVERNS THIS PROCESS, INCLUDING THE ARBITRABILITY OF ANY DISPUTE UNDER THIS TARIFF AND THE REVIEW OF ANY AWARD.

The arbitration will be conducted by and under the then-applicable commercial arbitration rules of the American Arbitration Association (“AAA”) at the nearest AAA Case Management Center or other location as agreed upon by Customer and Company. A single neutral arbitrator engaged in the practice of law will conduct the arbitration. The arbitrator will be selected according to the rules of the American Arbitration Association or, alternatively, may be selected by agreement of the parties, who will cooperate in good faith to select the arbitrator. All expedited procedures prescribed by the applicable rules will apply. All required fees and costs will be paid equally by the parties as set forth in the AAA commercial arbitration rules. The arbitrator’s decision and award will be final and binding, and judgment on the award rendered by the arbitrator may be entered in any court with jurisdiction.

No Dispute may be joined with another lawsuit, claim, dispute, or arbitration brought by any other person, or resolved on a class-wide basis. The arbitrator may not award damages that are barred by this tariff and may not award punitive damages.

If any party files a judicial or administrative action to resolve a Dispute without first complying with the provisions of this Section and another party successfully stays such action and/or compels arbitration, the party filing that judicial or administrative action must pay the other party’s costs and expenses incurred in seeking such stay and/or compelling arbitration, including attorney’s fees.

Notwithstanding the provisions of this Section, the Customer may file a complaint with the Commission as described in Section 2.9.

If any portion of this Section is determined to be invalid or unenforceable, the remainder of this Section and this Tariff shall remain in full force and effect.

SECTION 2 RULES AND REGULATIONS, (CONT'D)

2.15 Customer Complaints

In accordance with 23.41 (C) (1) and (2) of the Commission's Substantive Rules, the Company shall, upon receiving a complaint by a customer at the Company's business office, either by letter or by telephone, promptly conduct an investigation of such complaint and advise the complainant of the results thereof. In the event the complainant is dissatisfied with the Company's report, the Company shall advise the complainant of the Public Utility Commission of Texas complaint process. The Company shall provide the customer with the address and telephone number of the Consumer Affairs Division of the Commission and if applicable, the Commission's TTY number for the deaf and hearing impaired.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)

4.2. Extended Area Calling Service (EACS) (1)

4.2.1 General

Extended Area Calling Service (EACS) is a service which enlarges a customer's local calling scope. EACS plans may be either one-way or two-way. One-way EACS is a service whereby customers can make direct dialed calls to customers in other specified exchanges for a flat-rate additive. Two-way EACS is a service whereby customers can make calls to and receive calls from customers in specified exchanges for a flat-rate additive. Individual EACS routes may be designated as mandatory or optional. Mandatory EACS applies to all grades of local exchange service access lines. Optional EACS applies to specific grades of single-party residence and business service.

4.2.2 Rates and Calling Scopes

The rate additives of this service are in addition to the local exchange access service rates as specified in Section 4.4. The calling scopes provided for subscribers of this service are in addition to the local calling areas as specified in 3.2 and 3.3.

(1) Effective August 5, 2008, this product is no longer available.

4.4 General Exchange Services

Footnotes—Business and Residence Rates & Charges—Calling Features – 4.4.1-4.4.2

- (1) This rate is inclusive of the Cancel Call Waiting option where available.
- (2) Caller ID with Name and Number—Caller ID with Name and Number (Caller ID) enables the terminating Customer to identify the calling party by displayed name and/or number before the call is answered. Caller ID Customers must provide and connect their own compatible CPE.

Any calling party may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customer will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customers that the calling party has elected to block the delivery of their name and telephone number. The blocking of CPN will not be provided on calls originating from Customer-Owned Pay Telephone Service. If the Caller ID customer also subscribes to Anonymous Call Rejection, the calling party will be routed to a telephone company recording advising the caller that the called party will not accept calls whose CPN has been blocked.

Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Company a need for blocking; (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies.

Line blocking customers can unblock their calling name and/or number information on a per call basis, at no charge, by dialing an access code (*82 on their Touch Tone pad or 1182 from a rotary phone) immediately prior to placing a call.

The Company shall not be liable for any claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a Caller ID customer of a name or telephone number which the calling party or the Caller ID customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated.

Telephone calling party name and/or number (CPN) information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this Tariff. CPN will not be displayed if the called party is off-hook or if the called party answers during the first ring interval. CPN will be displayed for calls made from another central office only if it is linked by appropriate facilities. Caller ID is not available on operator-handled calls.

- (3) One Call Forwarding feature (EMS) is applicable per line/trunk arranged.
- (4) One Simultaneous Call Forwarding feature (ESD) and one Call Forwarding feature (ESM) are applicable per line/trunk (non-hunting) used to establish connection.
- (5) Effective September 11, 2004, these service are no longer available to subscribers.

SECTION 4 SERVICES, (CONT'D)

4.4 General Exchange Services, (Cont'd.)

4.4.10 Outfielder Service (5)

A. General

Outfielder Service is a service whereby a call placed from a station (the originating station) to a customer's (Outfielder Service Customer) telephone number in one exchange (the call forwarding location) is automatically forwarded by the Company central office equipment to the subscriber's remote location. Terminating stations must have incoming call capability. With Outfielder Service calls are forwarded to: (1) a terminating station located within the same exchange as that of the call forwarding location or (2) to a terminating station located within a different exchange.

B. Regulations

1. Outfielder Service is offered subject to availability of suitable facilities and provided not unusual expense is involved.
2. Outfielder Service cannot terminate on public or semi-public service (i.e., coin telephone).
3. The Company will not provide identification of the originating telephone number to the Outfielder Service Customer.
4. Transmission characteristics may vary depending on the distance and routing necessary to complete the forwarded call.
5. Outfielder Service is not represented as suitable for satisfactory transmission of data.
6. Calls directed to Outfielder Service on a local basis are forwarded using Local Exchange Service.
7. The Outfielder Service Customer is responsible for subscribing to the appropriate service arrangement for each access path provided by the Company.
8. Outfielder Service is provided on the condition that the customer subscribe to sufficient services and facilities to adequately handle calls to the Outfielder Service Customer without interfering with or impairing any services offered by the Company.
9. Outfielder Service for a Metro Line is available for the monthly rates described

C. Rates and Charges(4)

4.4.11 Price Protection Plan (1)

- A. Fusion offers optional discounts for Customers that agree to a term commitment of 24 months. Customer is eligible for Price Protection Plan ("PPP") term pricing only where Customer has a minimum of three Basic Business Lines and/or Trunks within an account. The 24-month commitment also qualifies Customers for an Interexchange Service discount and a separate 12-month discount is also available for Interexchange Services as provided in Fusion's PUC Texas Tariff No. 2.
- B. Customers subscribing to the PPP must commit to a written term service agreement in a form designated by Fusion, which shall include, without limitation, Customer's term selection.
- C. The term will commence on the billing date for the first new line or the first billing date after Customer executes a term service agreement if the service is currently being provided to Customer.
- D. All rules, regulations, fees, charges, taxes and surcharges normally applicable to Basic Business Line and Trunk services shall apply. Any charges in any proposal or quotation are exclusive of taxes and surcharges. Term pricing may not be combined with any other offer.
- E. If monthly term rates as specified in Section 4.4.3 decrease during the term period, Customer may elect to obtain the new rates by executing a new term service agreement with the new rates, with a new term commencement date, and an agreement to the same or greater commitment term period.
- F. For Customers who establish a term service agreement, monthly Basic Business and Trunks rates will not change as a result of a Fusion -initiated increase; however, if a Local Exchange Rate Group Reclassification occurs, as set forth in this Tariff, an adjustment for the remaining term of the term service agreement will be made.

4.4.11 Price Protection Plan (1) (cont'd)

- G. If Customer disconnects Services or otherwise terminates its term service agreement prior to the end of the current term for any reason except for a failure by Fusion to meet the terms of the Term Customer Service Level Objectives specified below, Customer agrees on the next monthly invoice to pay a termination charge as liquidated damages and not as a penalty, equal to the greater of:
1. \$50.00 per terminated line, or
 2. \$10.00 per terminated line multiplied by the number of months remaining in the current term.
- H. Customer may add or terminate new voice lines without termination liability, provided that Customer maintains service to its primary billed telephone number for the remainder of the term commitment and remits payment for any applicable charges, surcharges and fees.

(1) Effective August 5, 2008, Fusion Price Protection Plan is no longer available for new service.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)**4.4 General Exchange Services, (Cont'd.)****4.4.11 Price Protection Plan, (Cont'd.)**

- I. The following Service Level Objectives apply to the PPP only, and are subject to all other provisions of this Tariff, including specifically but without limitation, any and all limitations of liability. Fusion will use commercially reasonable efforts to provide Services in accordance with the following Service Level Objectives:
1. Complete loss of Service caused solely by a Fusion network problem will be remedied within 8 business hours from Customer notification of the Company.
 2. Partial loss of Service caused solely by a Fusion network problem will be remedied within 12 business hours from notification to BNM.
 3. Noise or static caused solely by a Fusion network problem will be remedied within 16 business hours from notification to BNM.
- J. As Customer's sole remedy for any failure to meet any of the above Service Level Objectives, unless such Service Level Objective is caused by an event outside the reasonable control of Fusion, any event of force majeure, or any failure resulting from facilities, inside wiring or equipment of Customer or third parties, Customer may terminate its term commitment obligation without incurring termination liability by providing written notice to Fusion within thirty (30) days of the failure to meet the applicable Service Level Objective. If Customer continues to use Fusion service following any such notice of termination, Customer may continue to receive term pricing and pricing update notices.
- K. A Service Level Objective failure shall be deemed to commence upon the opening of a trouble ticket with BNM, as requested by Customer, and shall be deemed to terminate upon the clearing of the same trouble ticket. No failure shall be deemed to have occurred unless Customer has provided reasonable assistance in an effort to diagnose the reported problem. Reasonable assistance includes, but is not limited to, requesting the opening of a trouble ticket from BNM promptly, providing Fusion access to Customer's premises, if necessary, and assisting Fusion with problem identification and resolution.
- L. Customer shall be responsible at all times for the proper installation, operation and maintenance of any Customer-provided equipment used in connection with the Services. In addition, Customer shall ensure that all such equipment is technically and operationally compatible with the Services and in compliance with applicable laws and regulations.
- M. If Customer relocates to another location in a Fusion market where the same Services are available, Customer may transfer Services to the new location if the new Services equal or exceed the number of lines at the old location, upon payment of installation charges for the new location, if applicable; however, rates may vary by location, and Customer's rates may increase.

Footnotes for Home Connection Bundles

- (1) Home Connection Rate Groups are defined in Section 4.4.12L of this Tariff.
The customer is required to have Home Connection Bundle on their primary line. Customers who convert additional line or later install additional lines may add to those lines (1) Home Connection Bundles with no Long Distance Block of Time at the rates specified in Section 4.2.20A and 4.2.20D; or (2) desired features as specified in Section 4.2.20G; or (3) no Home Connection Bundle or features.
Home Connection lines will automatically be blocked for 900/976 calling. The customer may request that 900/976 access be unblocked.
- (2) Customer has the option to deactivate Call Waiting in the Call Waiting ID Options leaving the customer with Caller ID.
- (3) The Customer may accept or decline the feature(s); however, declining the feature(s) will not reduce the package monthly rate.
- (4) Long Distance Block of Time allotment applies to all domestic 1+ Direct Dialed minutes of use.
All other types of calls, (Operator Assisted Long Distance calls, OS/DA, International, Toll Free, Calling Card, etc.), will be rated at standard rates according to the rate tables established for the calls.
- (5) Long Distance minutes apply per Customer account. All Rules and Regulations found in the Company's Interexchange Tariff, PUC Texas No. 5, will apply to long distance services.
- (6) Usage Sensitive Features (USF) will count as one feature. The USF includes Auto Redial, Call Return and Three Way Calling.
The customer may elect to use USF on a casual basis in lieu of as an optional feature. On a casual basis the customer will be charged \$.50 per use with a maximum per month fee of \$4.00 per USF type.
- (7) Effective March 2, 2004, these rates are only applicable to existing 1-2 line customers.
- (8) Rate Groups listed for availability are in Section 3.2.2 unless listed specifically in Section 4.4.12.
- (9) This service is available to current subscribers of the service only and will not be offered to new subscribers effective May 15, 2005.
- (10) Effective August 5, 2008 this product is no longer available for new service.

Footnotes for SmartBiz Bundles

- (1) Rate Groups are defined in Section 3 of this tariff.

This service offering is limited to one-line business customers. Customers may order an additional line to be added to the service at the rates specified elsewhere in this tariff. Once the customer's service exceeds two lines, its options and pricing revert to those specified elsewhere in this tariff.

The installation charges specified elsewhere in this tariff apply to installation of SmartBiz Bundles.

SmartBiz Bundle lines will automatically be blocked for 900/976 calling. The customer may request that 900/976 access be unblocked.

Usage Sensitive Features (USF) will be included with all local lines. The USF includes Auto Redial, Call Return and Three Way Calling. The customer will be charged \$.50 per usage.

- (2) Customer has the option to deactivate Call Waiting in the Call Waiting ID Options leaving the customer with Caller ID.

- (3) Long Distance Block of Time allotment applies to all Domestic 1+ Direct Dialed minutes of use.

All other types of calls (Operator Assisted Long Distance calls, OS/DA, International, Toll Free, Calling Card, etc.) will be rated at the standard rates according to the Rules and Regulations found in the Company's Interexchange Tariff, PUC Texas No. 5.

- (4) Long Distance minutes apply per Customer account. All Rules and Regulations found in the Company's Interexchange Tariff, PUC Texas No. 5 will apply to long distance services.

- (5) Optional Features can be added to a SmartBiz Bundle or an additional line at the rates specified elsewhere in this tariff.

Feature Change Charge of \$10.00 applies to any feature change.

3 Feature Package or 7 Feature Package features packages are not available with the SmartBiz Bundle package.

- (6) Effective March 2, 2004, these rates are applicable to 1-2 line existing customers only.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)**4.4 General Exchange Services, (Cont'd.)****4.4.14 Direct Inward Dialing (DID) Service (1)****A. Description**

DID Service is a one-way inward analog service. DID Service permits incoming calls to a PBX or other customer premise equipment from the network to reach a specific station line number without the assistance of an attendant. DID Service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID Service subject to the appropriate Company intra and interexchange rates. This service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment. The service must be provided on all trunks in an arranged group. Each trunk group shall be considered a separate service. Grouping service will not be provided between separate trunk groups. Facilities and operational characteristics of interface signals between Company provided connecting arrangements and the customer provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of attendant interceptor recorded announcement service.

DID numbers are provided in blocks of 10 or 100 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block or to provide DID numbers arranged in a consecutive manner.

One primary directory listing will be furnished without charge for each separate trunk group.

Customer's first block of 10 numbers will be provided at no charge. Where a Customer's first block of numbers consists of 100, a credit equivalent to the monthly rate for the first block of 10 numbers will be applied to Customer's account every month. This will be applicable to all customers of this service.

(1) This service is available to current subscribers of the service only and will not be offered to new subscribers effective May 15, 2005. Term commitments will expire at the end of the current term with no renewal option available.

C. Footnotes

- (1) Some former Navigator customers may have special pricing arrangements that deviate from the rates in this section.
- (2) Effective July 1, 2009, this service is no longer offered.
- (3) Former Navigator Customers using this product will now be billed under the product name Home Connection.
- (4) Former Navigator Customers using this product will now be billed under the product name Net Value Line.
- (5) Former Navigator Customers using this product will now be billed under the product name Home Essentials.
- (6) Former Navigator Customers using this product will now be billed under the product name Net Essentials.
- (7) Former Navigator Customers will be billed a bundled flat local rate effective July 1, 2009. Any metered or measured usage, along with certain fees, will be combined into a single bundled flat line rate. The new bundled local rate has been calculated by adding together the main line rate, the monthly average, over the last six months, of local usage charges for any measured or metered use, any local or extended area calling plan charges, any business or residential package charges, the End User Common Line Charge, the Pre-subscription Charge and the Access Recovery Surcharge fees. In summary, the new bundled rate reflects the customer's previous Navigator rates for the same services and fees.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)**4.4 General Exchange Services, (Cont'd.)****4.4.30 CLEARTEL SERVICES, (Cont'd.)****4.4.30.3 Customer Owned Pay Telephone (COPT) Service****1. Description**

- Customer Owned Pay Telephone (COPT) Service is a two-way, or, optionally, a one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer/subscriber premises, and the network interface. 900/976 call restriction are provided at no additional charge. 900/976 call restriction restricts calls to these pay-per-call information services to only those calls which are alternately billed.
- All pay telephone service providers must register with the Commission, using Commission-prescribed forms, in order to do business in the state of Texas. Texas subscribers must register according to Texas Substantive Rule 26.102 and must renew such registration annually by July 31st.
- No person, business, government or entity of any type will be permitted to subscribe to COPT where such service is being used primarily for the purpose of placing directory assistance calls. If such COPT is installed, and is subsequently discovered by the Telephone Company by whatever means, that such service is being used primarily for the purpose of placing directory assistance calls, such service will be disconnected after giving the customer a written 20-day notice of violation and disconnection. The Telephone Company further reserves the right to refuse to connect, or re-connect, such COPT at such premises in the future.
- The COPT customer shall sign an agreement to indemnify and hold Fusion harmless from any and all loss, damage and expense occasioned by, or arising out of, claims for injury to persons or damage to property caused by, or contributed to, by the provision of detailed toll billing records to the COPT customer by Fusion, including but not limited to, any disclosure of said detailed toll billing records by the COPT customer. Detailed toll billing records include only toll calls billed by Fusion.
- At the customer's request, a primary listing will be provided at no charge in the local telephone directory for the exchange where the service is provided.
- The Company will not initiate a maintenance service call or take any other action in response to a trouble report on a COPT line until such time as requested by the pay telephone owner or its agent. The pay telephone owner must keep the Company advised of the identity of the pay telephone owner or agent authorized to request a maintenance service call.

4.4 General Exchange Services, (Cont'd.)

4.4.30 CLEARTEL SERVICES, (Cont'd.)

4.4.30.3 Customer Owned Pay Telephone (COPT) Service, (Cont'd.)

1. Description, (Cont'd.)

- The Company will provide directory assistance service under the provisions of this tariff. However, the Company is not required to provide such service to COPT lines accessible to inmates of confinement facilities. The customer shall be responsible for the installation, operation and maintenance of the COPT used in connection with this service.
 - (a) The customer shall be responsible for the payment of Maintenance of service Charges, as provided for in Section 4.4.28 of this tariff. The customer is responsible for visits by a Fusion dispatched technician to the customer's premises when a service difficulty or trouble report results from the use of customer-provided pay telephones and the maintenance/repair call is authorized by the owner or agent.
- All pay telephone service providers must register with the Commission, using Commission-prescribed forms, in order to do business in the state of Texas. Texas subscribers must register according to Texas Substantive Rule 26.102 and must renew such registration annually by July 31st.
- The COPT provider is responsible for the payment of charges for all local and toll messages.
- The COPT provider must comply with all applicable federal, state and local laws and regulations.
- COPT may be connected to, from, or through a customer-provided telecommunications switching system, provided that the pay telephone service provider meets all requirements of Substantive Rule 23.54. The pay telephone service provider must ensure that access to E-911, 911, and/or 0- is not blocked and must comply with all legislative and rule requirements regarding the operation of E-911 and 911. This access configuration is not allowed if it prevents usage measurement, by Fusion, of the COPT access line.
- Pay telephone must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind an FCC registered coupler.

2. Call Screening and Services

A. Billed Number Screening (BNS)

1 .BNS is provided at the customer's option at no charge. It is a process by which the Carrier (LEC, IXC, OSP, etc.) validates customer acceptance of incoming Billed to Third Party or Collect calls by means of a data base query.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)**4.4 General Exchange Services, (Cont'd.)****4.4.30 CLEARTEL SERVICES, (Cont'd.)****4.4.30.3 Customer Owned Pay Telephone (COPT) Service, (Cont'd.)****2. Call Screening and Services, (Cont'd.)****A. Billed Number Screening (BNS), (Cont'd.)**

2. Customers who elect not to subscribe to Billed Number Screening, as described in paragraph A.1. preceding, will be fully responsible for all collect calls and third number billed calls which are billed to customer's exchange access line. Fusion shall have no responsibility to adjust any such charges and/or release customer from paying such charges. Customer will hold Fusion harmless from and against any liability or loss resulting from all such collect calls and third number billed calls.

B. Selective Class of Call Screening (SCOCS)

1. SCOCS is an optional service feature which may be provided where such facilities are available. It enables a customer, by means of a Company provided line screening code to restrict outgoing operator handled calls from a designated access line to only those calls which are charged to the called number (Collect), a third number or a Calling Card account.
 - SCOCS is only effective where (1) the Company carries the call, or (2) the carrier (LEC, IXC, OSP) or other entities which are affected by the terms and conditions of Substantive Rule 26, which carries the call recognizes the originating line screening which identifies the line as one that subscribes to SCOCS and only permits calls in conformity therewith.
 - However, if the customer subscribes to SCOCS, the customer will not be responsible for message charges incurred for calls placed in violation of the call screening restrictions. If a carrier for which the Telephone Company is the billing agent carries a call from a line subscribed to SCOCS, the Telephone Company will adjust such message when the customer brings the situation to the Telephone Company's attention. Such message charges will be charged back as uncollectible to the carrier.
2. Originating line screening for a designated COPT access line can be arranged by providing one of the three following types of SCOCS.
 - (a) Type 1: Basic SCOCS - An outgoing call will not be permitted unless the end user makes arrangements to have the call billed to a called telephone number (Collect Call), a third telephone number, or a Calling Card account.

- (b) Type 2: Collect Only-Inmate calls: Under this arrangement only an outgoing call billed to a called telephone number (Collect Call) is permitted.
 - (c) Type 3: Coinless Only SCOCS - An outgoing call will not be permitted unless the end user makes arrangements to have the call billed to a called telephone number (Collect Call), a third telephone number, or a Calling Card account.
3. No variation, alteration or refashion of the screening codes, billing restrictions, applicable access or other general provision of SCOCS will be permitted.
 4. In those serving central offices where call screening is not available, the Company will not bill any call, including, but not limited to, third number billed, collect, "0" or "0+" calls to a number which has been clearly identified as a pay telephone to the Company-provided operator at the time of the call attempt. However, the Company will not be responsible for refunds of adjustment of charges for calls placed through other than Company-provided operators.
 5. All local calls and calls to Telephone Company numbers such as repair service, Directory Assistance Services and to public emergency numbers, such as 911, will be permitted from the COPT access line. However, these requirements may be waived when pay telephones are accessible to inmates in confinement facilities.
 6. Customers who elect not to subscribe to Selective Class of Call Screening, as described in this Section, will be fully responsible for all calls billed to customer's exchange access line. The Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.

C. Central Office Call Blocking

1. Local and "1+" call blocking provides central office blocking of all local calls (7 digit) and direct dialed toll calls from coinless telephones. However, a uniform access code 950-XXXX assigned to a carrier for its international communications is not blocked but is routed to that carrier. The calls blocked include, but are not limited to.. 111+11, 1110XXX+111, "IOXXX+011", "IOIXYXX+I" and "IOIXXXX+011" type calls. This service is offered in serving offices where facilities exist.
2. International Direct Dialed (IDD) call blocking is an optional service arrangement which provides central office blocking of direct dialed international calls ("0 11 ", " I OXXX+0 I I " and 10 1 XXXX+O I I ") from coin operated telephones to telephone numbers outside the North American Dialing Plan. This service is offered in serving offices where facilities exist.

Customers who elect not to subscribe to IDD call blocking shall be responsible for the payment of all charges associated with IDD calls and shall indemnify and hold nii communications harmless from any and all loss and expense occasioned by fraudulent international calls which may be placed from the COPT access line.

D . Answer Supervision - Line Side

Answer supervision-Line Side provides "off-hook" supervisory signals to customer premises equipment. These signals originate from the "called" party's serving (terminating) central office to a line interface at the "calling" party's serving (originating) central office. This feature provides the signal that allows billing to begin. This feature is not compatible with the Call Waiting,Speed Calling and Three-Way Calling features when provided Selective Class of Call Screening.

- A. If a COPT subscriber is in violation of a tariff provision, the Company will notify the COPT subscriber of the violation in writing. Such notice must refer to the specific tariff provisions being violated. The notice must state that the COPT subscriber is subject to disconnection by the Company for violation of the tariff unless the violation is corrected and the Company is notified, in writing, within 20 days of receipt of such notice that the violation has been corrected. The Company may disconnect service for violation of the tariff on or after the 20th day after receipt of the notice by the COPT subscriber, if the COPT subscriber did not notify the Company in writing within 20 days of receipt of the notice that the violation was corrected. However, if the COPT subscriber has filed a complaint with the commission regarding the disconnection and has provided the Company with a copy of the complaint that indicates that the complaint has been filed with the Commission's complaint office, within 20 days of receipt of the notice of violation the Company will not disconnect service pending resolution of the complaint by the Commission.
- B. Pursuant to Substantive rule 23.54(k), should a pay telephone service provider be found to be in violation of Commission Rules, the Company will disconnect the COPT upon order of the Commission.
- C. Where a pay telephone is discovered to be connected to the network and is being billed under any tariff other than the COPT tariff, the Telephone Company will back-bill the difference between the COPT rate for 6 months, and the rate the customer actually paid, unless the customer can show that the pay telephone instrument was connected at a later date, in which case the back-billing shall run from the date of connection.
- D. If a customer fails to pay the amount back-billed pursuant to the above-stated provision, the Telephone Company shall suspend service, pursuant to Substantive Rule 23.45(h) on the COPT access line and on any other business service provided by the Telephone Company to the COPT customer, until such time as the back-billed amount is paid in full.

4.4.32 Payphone Service Provider (PSP) Services

4.4.32.A Rules and Regulations

1. Service for Payphone Service Provider ("PSP") Telephones is an exchange line service provided at the request of the subscriber for telecommunications use.
2. Service is provided for use with PSP telephones.
3. The carriage and completion of all local dialed calls including operator service functions are provided by the Company.
4. Service is provided subject to the condition that telephone messages (local and long distance) placed from stations that are accessible to the public are completed over PSP lines (or other Public or Semipublic lines). Where service is furnished, any type or grade of residence or business service offered regularly at that location may be furnished in addition, provided such residence or business service is confined to locations solely for use by the particular establishment.
5. Service may not be attached to other types of access lines. A subscriber must order a separate PSP Access line for each PSP telephone installed and will be billed the tariff rate for each line.
6. Service may only be provided as Two-Way service, except lines placed in correctional institutions, schools, hospitals and other locations for which a specific exemption has been granted by the Public Service Commission. There will be no charge imposed for incoming calls.
7. For customers subscribing to Caller ID - Deluxe, if the incoming call originates from a customer provided public telephone, the name information transmitted will always be "Pay Phone".

8. The PSP shall be responsible for the installation, operation and maintenance of any PSP instruments used in connection with this service.
9. The PSP shall be responsible for payment of a nonrecurring charge as specified in this tariff for each visit by the Company or its agent to the customer's premises solely to determine that the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.
10. PSP telephones must be connected to the telephone network in compliance with Part 68 of the FCC Rules and Regulations as well as regulatory requirements of the New York Public Service Commission. The telephones must have the following operational characteristics:
 - (a). Must be lighted during the hours of darkness when light from other sources is not adequate to read instructions and use the payphone.
 - (b). Must be able to access 911 Emergency Service, where available, at no charge to the calling party. Where 911 is not available, must be able to access the "Operator", at no charge to the calling party. The appropriate emergency number (Operator, 911) must be clearly posted at each PSP location.
 - (c). Must be equipped to return the coins to the caller in the case of an incomplete call, except messages to a Feature Group A access number.
 - (d). Must provide free access to dial-tone and toll free numbers (e.g., 800, 877, and 888).
 - (e). Must complete calls to local and long distance directory assistance.
 - (f). Must provide free access to the responsible party for repairs or refunds. The Company is not responsible for refunds of coins deposited in customer-provided coin-operated public telephones.
 - (g). Must be equipped with a legible sign, card, or plate of reasonable permanence that shall identify the following:
 - I. The telephone number and location address of the payphone station, name and certificate number of the certificate holder, the party responsible for repairs and refunds, address of responsible party, free phone number of responsible party, clear dialing instructions (including notice of the lack of availability of local or toll services) and the local coin rate.
 - II. For those payphone stations that will terminate conversation after a minimum elapse of time, notice shall be included on the sign card as well as an audible announcement 30 seconds prior to termination of the phone call.

11. Each payphone station:

- (a). Must allow incoming calls to be received at all times, with the exception of those locations at hospitals, schools and locations specifically exempted by the Commission. There shall be no charge for receiving incoming calls.
- (b). A PSP may petition the Commission for an exception from the incoming call requirement for a period that shall not exceed two years from the effective date of the Order granting the exemption. Where incoming calls are not received, central office based intercept shall be provided at no charge to the end user and a written notice shall be prominently displayed on the payphone directly above or below the telephone which states: "Incoming calls blocked at request of law enforcement."
- (c). Must be connected to an individual access line.
- (d). Must permit outgoing calls to be placed at all times. Each pay telephone service company shall make all reasonable efforts to minimize the extent and duration of interruptions of service. Service repair programs should have as their objective the restoration of service on the same day that the interruption is reported to the company (Sundays and holidays excluded).

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)**4.4 General Exchange Services, (Cont'd.)****4.4.36 Remote Call Forward**

1. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (terminating station).
2. Limitations
 - (a) Remote Call Forwarding service is offered subject to availability of suitable facilities.
 - (b) RCF is not offered where the terminating number is a coin or coinless pay telephone.
 - (c) The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
 - (d) Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered, and applies only in the forwarding direction. The services to which RCF calls are forwarded are provided independent of the RCF service and may not be within the Company's jurisdiction. Further, such services can be changed subsequent to the provision of an RCF service. Consequently, it is impractical to assure that such increased tandem forwarding never occurs. Where the Company is aware of such a service configuration, it reserves the right to modify such arrangements. Modifications may include, but are not limited to, changing the associated forwarded to number or termination of the RCF service. The RCF customer will be responsible for normal tariff charges for such changes.

SECTION 4 SERVICES, (CONT'D)

4.4 General Exchange Services, (Cont'd.)

4.4.36 Remote Call Forward, (Cont'd.)

(e) Remote Call Forwarding is not suitable for satisfactory transmission of data.

(f) RCF is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If in the opinion of the Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will, where appropriate, be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 SERVICES, (CONT'D)

4.4 General Exchange Services, (Cont'd.)

4.4.36 Remote Call Forward (cont'd)

(g) When the Call Forwarding number is to be located in a multi-office exchange, the Company will determine the serving central office.

(h) Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling area within the same county, or are within an Extended Area Service arrangement as specified in this Tariff. All other calls will be sent-paid (1+) only.

(i) Where a business directory listing is provided for the RCF number, calls will not be forwarded to a Company-provided telephone service for which residential rates apply.

(j) Where calls are to be forwarded to telephone service other than that of the RCF subscriber, it shall be the responsibility of the RCF subscriber to obtain permission for such forwarding from the subscriber to the other service and to determine a mutually acceptable number of access paths. Where the other subscriber contests such forwarding or the number of access paths, the Company reserves the right to modify the RCF service to the extent necessary to eliminate the other subscriber's complaint. The RCF subscriber shall be responsible for the tariffed charges for any resulting rearrangement of the RCF service.

3. Minimum Contract Period

The minimum contract period for this service is one month.

4. Charges

The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used.

Monthly Rate

(a) Per feature arranged for other than local calling	\$ 35.25
(b) Per feature arranged for local calling	35.25
(c) Per additional access facility	35.25

4.4.36 Remote Call Forward (cont'd)

5. Message Charges

(a) The message charges applicable to remotely forwarded calls shall be comprised of two separate charges: (1) a charge for that portion of the call from the originating station to the call forwarding location, and (2) a charge for that portion of the call from the call forwarding location to the terminating station. The respective charge for each such portion shall be as follows:

- Between the originating station and all forwarding locations. The charge for this portion of a remotely forwarded call shall be the charge specified in this or any other applicable Tariff for the type of call involved.
- Between the call forwarding location and the terminating station. The Remote Call Forwarding customer is responsible for the applicable charges specified in this or any other applicable Tariff for other than seven- or ten-digit local calling. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

No message charges apply for seven- or ten-digit local calling.

6. Remote Call Forward Additional Path \$35.25/each

Additional paths may be provided to handle multiple calls to the Remote Call Forwarding number as long as there are at least an equal number of lines at the terminating end.

4.5.2 Conference Service (1)

A. Rates and Charges

The total charge for the conference connection is the sum of the set-up charge and the usage charge for total conversation time.

1. Set-up charge is \$1.85 for each Exchange Access Arrangement included in the conference call.
2. The charge for conversation time will consist of the total minutes of conversation multiplied by the appropriate usage charge per minute applying to the conference call.
3. The per-minute charge for each main service point is as follows:

Mileage Between the Two Most Distant Service Points	Charge Per Minute
0 – 17	\$.06
18 – 66	.12
Over 66	.18

(1) Effective September 11, 2004, this service is no longer available to subscribers.

4.5.4 Toll Service

Provides facilities to complete interLATA, intrastate or intraLATA, interexchange calls between two points. Customer makes call by dialing directly or with operator assistance. Direct Dialing includes 1 + Area Code (where necessary) + telephone number, or, in some cases for IntraLATA, users must access the Company's network by dialing 1010678 then 1 + Area Code + Number. For operator assistance a customer dials O only, O + telephone number or O + NPA + telephone number for IntraLATA calls.

No monthly recurring charges or minimum monthly billing requirements for outbound long distance calls will apply for those customers using Fusion for both local and long distance service. A minimum monthly billing requirement of \$4.95/account per month will apply for customers using Fusion for long distance service only.

4.6 Directory Services

4.6.1 Directory Listings

Listings are regularly provided in connection with all classes of Exchange Service, unless the customer subscribes to Nonpublished or Nonlisted Service. The contract period for directory listings where the listing is printed in the directory is the directory period. Where the listing has not been printed in the directory, the period is one month.

In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a non-published or non-listed telephone number in the directory or disclosing said number to any person shall attach to the Company. Where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such listing. The subscriber indemnifies and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-listing or non-published listing.

The Nonrecurring Charge is applicable only when the request for service is subsequent to the initial installation of the exchange access line or Fusion line or trunk.

4.6.2 Directory Assistance Service

A. Rates

1. Where the customer places a sent-paid direct dialed call to Directory Assistance, the charge for each call (maximum of two numbers requested) is \$3.99 for each in excess of the allowance. Where a customer makes more than two requests on a call, each request in excess of the customer's allowance is \$3.99. For calls with more than two requests the initial request will consist of the first two numbers requested. The initial request will be treated as a single request, each additional number requested thereafter will be considered a request. There is a maximum of ten requests per call.
2. Where the customer places a call to the Directory Assistance attendant via an operator or has Directory Assistance Service Charges are billed to a third number; or a special billing number, the charge for each call (maximum of two requests per call) is \$3.99

B. Directory Assistance Charge Exemption

Directory Assistance Charge Exemption gives 50 Free (local, long distance, or combination of both) DA calls per billing cycle on each line where the end user has disabilities that prevent use of the telephone directory. Normal tariffs apply to DA calls for the 51st and all other additional calls within a billing cycle. For purposes of this rule, disability means, with respect to an individual, a physical or mental impairment that prohibits a customer from using the telephone directory.

A letter from the end-user's physician, clinic or appropriate group/agency verifying the disability, on the official letterhead of the physician, should be attached to the application. Access Integrated Networks will not be responsible for any charges incurred to obtain certification. In addition to the physician's letter, the customer will be required to complete Access's Directory Assistance Charge Exemption Application Form.

4.6.4 National Listing Service

A. Service Description

National Listing Service (NLS) is a service whereby customers may request listing information for areas outside their LATA or home NPA. Requests for listings that are intraLATA or within the customers home NPA are billed under the current Directory Assistance plan as described in Section 4.6 of the Local Exchange Tariff.

Callers access NLS by dialing 1+411 or 0+411. Only calls made for listings outside the customers' local directory assistance scope as defined above will be eligible for NDA.

B. Regulations

The regulations and rates set forth below apply to all calls from customers who request assistance in determining telephone number information of national subscribers as defined in 4.6.4. above.

The customer will be charged for each listing request made during the call. The NDA rate applies per listing request whether or not a number is provided including requests for numbers which are non-published, non-listed or not found. There are no allowances associated with NDA.

There are no exemptions from billing for requests for NDA.

4.7.3 Direct Inward Dialing (DID) Service (1)

A. Description

DID Service permits incoming calls to a PBX or other customer premise equipment from the network to reach a specific station line number without the assistance of an attendant. DID Service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID Service subject to the appropriate Company intra and interexchange rates. This service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment. The service must be provided on all trunks in an arranged group. Each trunk group shall be considered a separate service. Grouping service will not be provided between separate trunk groups. Facilities and operational characteristics of interface signals between Company provided connecting arrangements and the customer provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of attendant interceptor recorded announcement service.

DID numbers are provided in blocks of 10 or 100 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block or to provide DID numbers arranged in a consecutive manner.

One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be provided as specified in Section 4.6 of this tariff.

4.8. Virtual Office Service

Virtual Office Service is a service whereby calls placed to a business customer's telephone number (the Virtual Office number) in one exchange are automatically forwarded to a telephone number (the terminating number) in another exchange. The Virtual Office number does not involve telephone equipment, a physical location, or manual input to initiate the forwarding of calls to the terminating number. When a Virtual Office number is called, it is intercepted at the local central office and automatically routed to whatever terminating number the customer designates. The forwarded calls can be local or toll, depending on the type of service to which the customer subscribes. The Virtual Office customer is responsible for any local usage or toll charges incurred between the customer's Virtual Office number and the terminating number. The Virtual Office number includes one path, which allows for one call to be forwarded at a time. Additional paths can be ordered to allow additional calls to be forwarded simultaneously. Virtual Office Service is available to Fusion business customers only.

Virtual Office Service is available in the following packages:

- Local Virtual Office Service
- Long Distance Virtual Office Service

H. Local Virtual Office Service

- The Virtual Office number and the terminating number are within the same local calling area.
- Unlimited local calling will be allowed between the virtual Office number and the terminating number.

	Monthly Rate	Service Charge (1)

Additional Long Distance Path	14.25	15.00

C. Regulations

- 1. A Virtual Office number cannot terminate on a public or semi-public service (coin telephone).
- 2. Virtual Office Service does not provide caller identification of the originating number to the terminating number.
- 3. A Virtual Office number is not suitable for data transmission.
- 4. The Virtual Office path is not released when the call is forwarded.
- 5. Virtual Office Service is subject to the availability of facilities.
- 6. Virtual Office Service cannot be suspended (vacation service).
- 7. Calls will only be allowed to be forwarded to a business line.
- 8. Collect and third-party calls will be billed to the Virtual Office number.
- 9. Custom calling features are not available on a Virtual Office number.
- 10. The Virtual Office number cannot terminate to another such number, whether a Virtual Office number or the same such service of another service provider.
- 11. Call Forward Variable should not be offered on the terminating line. Customers are allowed to have Call Forward Busy/No Answer on the terminating number for voice mail purposes.
- 12. Virtual Office can terminate to a distinctive ring number. The distinctive ring number must be different than the Virtual Office number.
- 13. Virtual Office may only be used for the communications of a single end use. It may not be used to aggregate the long distance communications of multiple end users for resale or to provision communications services for others.

D. Directory Listing

One listing in the directory covering the exchange in which the Virtual Office number is located is provided without additional charge. Additional listings and other Directory Listing products may be purchased for the Virtual Office number.

- (1) The Service Charge applies to an order for new Virtual Office Service, to change the Virtual Office number, to change the number to which the number is forwarded, and to add additional paths, whether ordered at the time of conversion of service or on a subsequent order. Only one Service Charge will apply per request, regardless of the number of additions or changes made by the request. The Service Charge will not apply to convert the service and its existing path(s) to Fusion or on outside moves of customer's other service if there is no Virtual Office number or terminating number change.
- (2) The customer may select Fusion long distance service, or another long distance carrier from the Fusion -approved long distance carrier list, to carry the traffic from the Virtual Office number to the terminating number. When Fusion is selected as customer's long distance carrier for service other than its Virtual Office Service, as well as for its Virtual Office Service, the Virtual Office number long distance usage will be invoiced at the customer's plan rate, as applicable, and any usage will contribute to the customer's volume commitment, if any. When Fusion is selected as the customer's long distance carrier for its Virtual Office Service only, the default Fusion long distance rate, as set forth in the Company's Interexchange Tariff, Texas P.S.C. No. 5, in Section 5.4.1, will apply to any long distance usage billed.

All Rules and Regulations found in the Company's Interexchange Tariff, Texas P.S.C. No. 5, will apply to long distance services.

1. Responsibility of the Customer

Customers subscribing to Service must execute a written term agreement in a form designated by Fusion, which shall include without limitation, Customer's term selection.

Prior to installation of service, Fusion will deliver a T1 or DSL circuit to Customer's premises (the "Circuit Delivery Date"). In the event that installation of Services is postponed, but postponed less than twenty-one (21) days from the Circuit Delivery Date due to Customer delays, billing will commence on the date Service is installed. If installation of Service is postponed more than twenty-one (21) days from the Circuit Delivery Date due to Customer delays, billing will commence on the twenty-first (21st) day from the Circuit Delivery Date. In the event that installation and turn-up of Services is postponed for any time period due to Fusion delays, billing will commence on the date service is installed.

Service may be used only for interconnection to Private Branch Exchange (PBX) systems. Interconnection with modem pooling devices, remote access service, automated dialing equipment, automated call distribution systems, routers or similar systems is prohibited. Service may not be used by Internet Service Providers, or as a component of a telecommunications service sold to or otherwise made available to third parties. Calls terminating to Service cannot be subsequently routed or otherwise forwarded to destinations other than Customer's premises.

A. Link D, Link T, PBX Connect, PRI Connect Services, (Cont'd.)

1. Responsibility of the Customer, (Cont'd.)

In addition to the rates and charges contained in this Tariff, the Customer is responsible for the payment of all related charges for miscellaneous and supplemental service as specified in this and other tariffs of the Company.

a. Link D Service, Link T Service

If it is determined during installation that the bandwidth required to provision Link D service cannot be provided for whatever reason, Customer will have the option of: choosing a lower bandwidth Link D service; choosing Link T service under the Link T terms and rates; or Customer may terminate the term agreement without penalty.

b. PBX Connect Service, PRI Connect Service

The maximum number of numbers assigned per PRI Connector PBX Connect T1 is 200. The minimum required service configuration for PRI Connect Service is one PRI Connect per location. The minimum required service configuration for PBX Connect is 12 channels per location.

Customers voice channels are provisioned for two-way traffic. The (N) Customer is responsible for limiting each channel's functionality in its telephone system as to inbound, outbound or two-way calling.

1. Responsibility of the Customer, (Cont'd.)

An Early Termination Fee is applicable if service is terminated by Fusion for Customer's breach or by Customer for any other reason prior to expiration of the term agreement subject only to those exclusions specified in Section 4.9.2.A.1.a and 4.9.2.A.1.b. The applicable charges are dependent on the term commitment selected by the Customer as follows:

For 12-month term plan Customers, the Customer will be required to pay a one-time Early Termination Fee of \$100 x Months Remaining.

For 24-month term plan Customers, the Customer will be required to pay a one-time Early Termination Fee of \$100 x Months Remaining.

For 36-month term plan Customers, the Customer will be required to pay a one-time Early Termination Fee of \$100 x Months Remaining.

2. Service Level Agreement (SLA)

The above Service Level Agreement (SLA) commitment is subject to all other provisions of this Tariff, including specifically, but without limitation, any and all limitations of liability. In no event shall any credit in a given month exceed the monthly recurring charge in that month. Fusion will provide Service in accordance with the following:

- a. All relevant on-net components are subject to this SLA. This includes on-net components such as Fusion local switches, POPs, core routers and circuits. Off-net components are not covered by this SLA.
- b. "Network Outage" exists when Customer's service is unable to transmit and receive Internet or voice service and Fusion records such failure in a trouble ticket in the Fusion Network Operations Center (NOC). A Network Outage is measured from the time the trouble ticket is opened to the time the trouble ticket is cleared.
- c. Installation interval will be measured from the signature date on the term agreement until such time that the service has been installed and determined by Fusion to be available for use.
- d. Upon Customer's request to the NOC made within ten (10) business days of the last day of the month in which the relevant SLA was not met, Customer shall be entitled to service credits as set forth herein. A credit shall be applied only to the month in which the event giving rise to the credit occurred. In no event shall the total credit in the aggregate for all SLAs issued in any month exceed the equivalent of 100% of the relevant monthly recurring charges for the affected service. SLA credits are customer's sole and entire remedy in the event of an outage and/or poor performance.

2. Service Level Agreement (SLA), (Cont'd.)

- e. The Customer must provide reasonable assistance in diagnosing the problem. This includes promptly requesting the opening of a trouble ticket, providing access to the Customer premises and providing assistance via telephone, fax or e-mail. This SLA is not available if installation delay is attributable to: Customer equipment; Customer's facility; acts or omissions of Customer, its employees or agents; failure of Customer to pass Fusion's credit check; line conditioning performed by Fusion's network vendor; Force Majeure events; or other events outside of the control of Fusion (each constituting a Service Credit Exception)
- f. Normal Maintenance refers to upgrades of hardware or software or upgrades to increase capacity. Normal Maintenance may temporarily degrade the quality of PRI Connect and may result in outages. Such effects related to Normal Maintenance shall not give rise to service credits under this SLA. Normal Maintenance shall be undertaken only between the hours of 11:00 and 6:00 AM Local Time. For the purpose of this SLA, "Local Time" refers to the local time in the time zone in which an affected service is located. Fusion will make commercially reasonable efforts to notify an affected Customer via email prior to the interruption.
- g. Urgent Maintenance refers to efforts to correct network conditions that are likely to cause a material service outage and that require immediate action. Urgent Maintenance may degrade the quality of the service, and may result in outages. Subject to the service credit exceptions stated above, effects related to Urgent Maintenance shall entitle Customer to service credits set forth in this SLA. Fusion may undertake Urgent Maintenance at any time it deems necessary.

2. Service Level Agreement (SLA), (Cont'd.)

- h. Customer may terminate the affected Service without penalty if an outage of eight (8) hours or more is experienced. Such outage must be documented in the Fusion NOC, and not be subject to the Service Credit Exceptions stated above.
- i. Customer shall be responsible at all times for the proper installation, operation and maintenance of any Customer-provided equipment used in connection with the Service. In addition, Customer shall ensure that all such equipment is technically and operationally compatible with Service and in compliance with applicable laws and regulations.
- j. If Customer relocates to another location in a Fusion market where the same PRI Connect Service is available, Customer may transfer that service to the new location if the new service equals or exceeds the number of lines at the old location, upon payment of installation charges for the new location, if applicable; however, rates may vary by location, and Customer's rates may increase.
- k. In the event a governmental agency determines the term agreement violates any law, rule or regulation, Fusion shall have the option of terminating the term agreement without further obligation to Customer or revising such agreement to comply with such law, rule or regulation.
- l. Service are for Customer's use only and may not be resold, and the term agreement may not be transferred or assigned, by operation of law or otherwise, without Fusion's prior written approval. Any attempted assignment or transfer without Fusion's prior written approval shall be void.

4.9.4 Rate and Charges

A. Link D, Link T, PBX Connect, PRI Connect Services

Rates and charges for circuit location changes (moves) and service order activity are listed below.

1. Definitions

- a. Additional Feature – non-recurring feature charge applies for adding, deleting or rearranging Service features, hunting on an existing account or for B channel rearranging on an existing Service account.
- b. Additional Voice Channel – a non-recurring additional voice channel fee applies for increasing or decreasing voice channels on an existing PRI Connect account.
- c. Move Charge - a move is defined as a location change such that the new location is within the same building and no facility modifications are required (i.e. new loop to the Customer premises). The non-recurring charge is applied per location.
- d. After Hours Conversion Charge – Customer may request that conversion to the Service be completed after normal business hours (8 a.m. to 5 p.m. CST). The After Hours Conversion can be scheduled from 5 p.m. to 7 p.m. CST, Monday through Thursday. All holidays and the day before a holiday are excluded from the available days for conversion. The Company may limit the number of After Hours Conversions in its discretion, considering the forecasted impact to its systems and networks, additional costs, vendor availability, and resource availability.

2. Non-recurring Charges to All Services

	Charges
Additional Channel	\$ 50.00
Additional Feature	\$ 10.00
Move Charge	\$100.00

Both the Additional Voice Channel charge and the Additional Feature charge apply per request, regardless of the number of voice channels added, features deleted, etc. In the event both the Additional Voice Channel charge and the Additional Feature charge are applicable, only the Additional Voice Channel charge will apply. For a new Customer, non-recurring charges do not apply for adding features referenced above

In the event a circuit location is moved resulting in an intra-building location change where no facility modifications are required (i.e. new loop to the Customer premises not required), a Move Charge will apply. If a Customer moves to another building and a facility modification is required (i.e. new loop to the Customer premises required), the Customer will be required to sign a new term agreement and pay the associated non recurring charges. The Move Charge is not applicable in this instance.

3. Maintenance Visit Charges

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for installing new service, effecting changes in service or resolving troubles reported by the Customer when the trouble is found to be caused by the Customer's facilities.

Maintenance Visit Charges will be credited to the Customer's account in the event trouble is not found in the Company facilities, but the trouble is later determined to be in those facilities. The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service, therefore, vary by time per Customer request.

Premise Work Charge	\$139.00
Initial Hour (time & materials)	\$165.00
Trouble Determination (per request)	\$110.00
Each Additional 30 minute increment	\$ 60.00
Each Additional Jack & Wiring (existing customer)	\$ 65.00

4.10 Lifeline Service Program

A. General Regulations

1. Lifeline is a telecommunications service assistance program designed to provide eligible residential customers with a reduction in the price of basic local exchange service.
2. The Lifeline discount is provided pursuant to P.U.C SUBST. R. 26.412, adopted March 19, 2007.
3. Applicants shall not be provided assistance for more than one basic residential access line in the state. An applicant for Lifeline may report only one address in the state as the principal place of residence.
4. Toll Restriction, if requested by the Customer, will be provided at no charge to the Customer.
5. Any additional services provided, either recurring or nonrecurring, shall be billed at the tariffed rate.
6. A Lifeline Customer is exempt from any Late Payment Charge associated with the Lifeline discounted service.
7. A Lifeline Customer is exempt from the Line Recovery Charge normally associated with the basic local exchange service.
8. A Lifeline Customer subscribing to Toll Restriction will have the residential deposit, if any, credited in full upon qualification for the discount. If Toll Restriction is not requested by the Customer, the deposit will not be credited.

SECTION 4 SERVICES, (CONT'D)**4.17 Local Market Trials****4.17.1 Purpose**

A market trial is intended to enable the Company to test its ability to provide services that may eventually be made available to the general public. As a part of a market trial, the company may need to test the capabilities of the systems required by a proposed service, including, but not limited to, systems needed to establish, provision, operate, bill and/or collect for a service, whether such systems are provided solely by the Company or in combination with systems provided by other carriers or vendors. A market trial is not an offer to provide service to the general public.

4.17.1 Eligibility

The Company may limit customers who are eligible to receive a service that is offered as part of a market trial, including but not limited to, limitations on the number of customers or the classes of customers who may subscribe to the service during the market trial. Additionally, the Company may limit the market trial to customers who are employees of the Company.

4.17.2 Availability

The Company, at its option, may choose to offer a market trial service on a statewide basis or may limit the availability of a market trial service to a smaller geographic area. The area in which a market trial service is available may include all or part of exchange and need not conform to existing exchange area boundaries.

4.17.3 Duration

A market trial may be conducted for any period of time defined by the Company, not to exceed 12 months.

4.17 Local Market Trials, (Cont'd.)

4.17.4 Notice

The Company will notify the Commission in writing of any local market trial services being offered in Texas. The informational filing shall indicate the terms and conditions of the market trial, including types of services being offered, the areas of the state in which the market trial is being offered, and the duration of the market trial.

4.17.5 Applicability of other Tariff Provisions

If the terms and conditions of the market trial as announced by the Company conflict with other provisions of this tariff, the market trial terms and conditions shall govern the market trial service offering. In all other instances, a market trial shall be subject to the other terms and conditions for service as contained in this tariff.
